

OVERVIEW · SEPTEMBER 2026

A website that works as hard as your crews

Website revamp for Pamar Enterprises: project showcase,
careers funnel, and subcontractor bid portal.

Prepared by Summit

Three jobs for the new website

Showcase the work

Show the full range of capabilities and completed projects so owners, engineers, and agencies see what Pamar can deliver.

Recruit the crew

Give operators, laborers, foremen, and managers an easy way to find openings and apply, right from their phone.

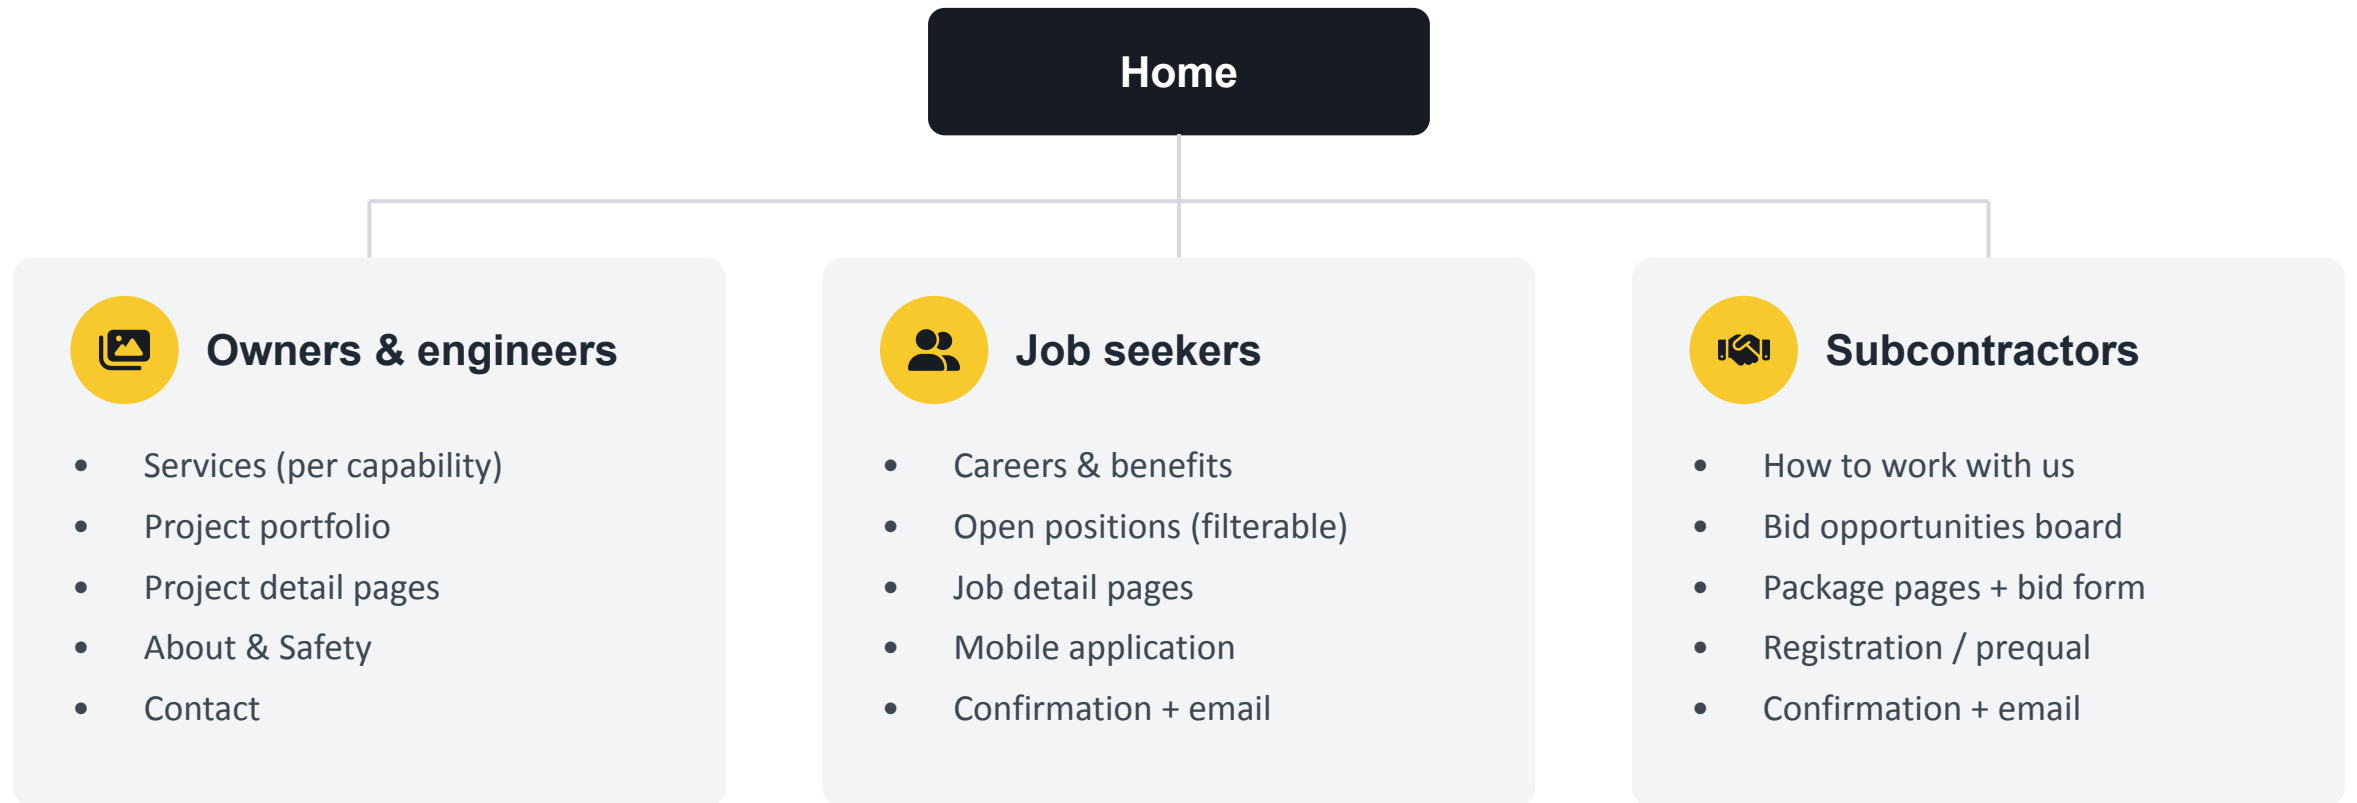

Win the right subs

Post subcontract packages on awarded contracts and collect interest, bids, and prequalification in one place.

Design direction informed by leading contractor sites: Kokosing, FNF, and Dan's Excavating.

One site, three audiences

Let the projects sell the company

Filterable portfolio

Browse by service, market, and year. Filtered views are shareable links.

Project stories

Scope, challenge, result, key facts, and a photo gallery for every job.

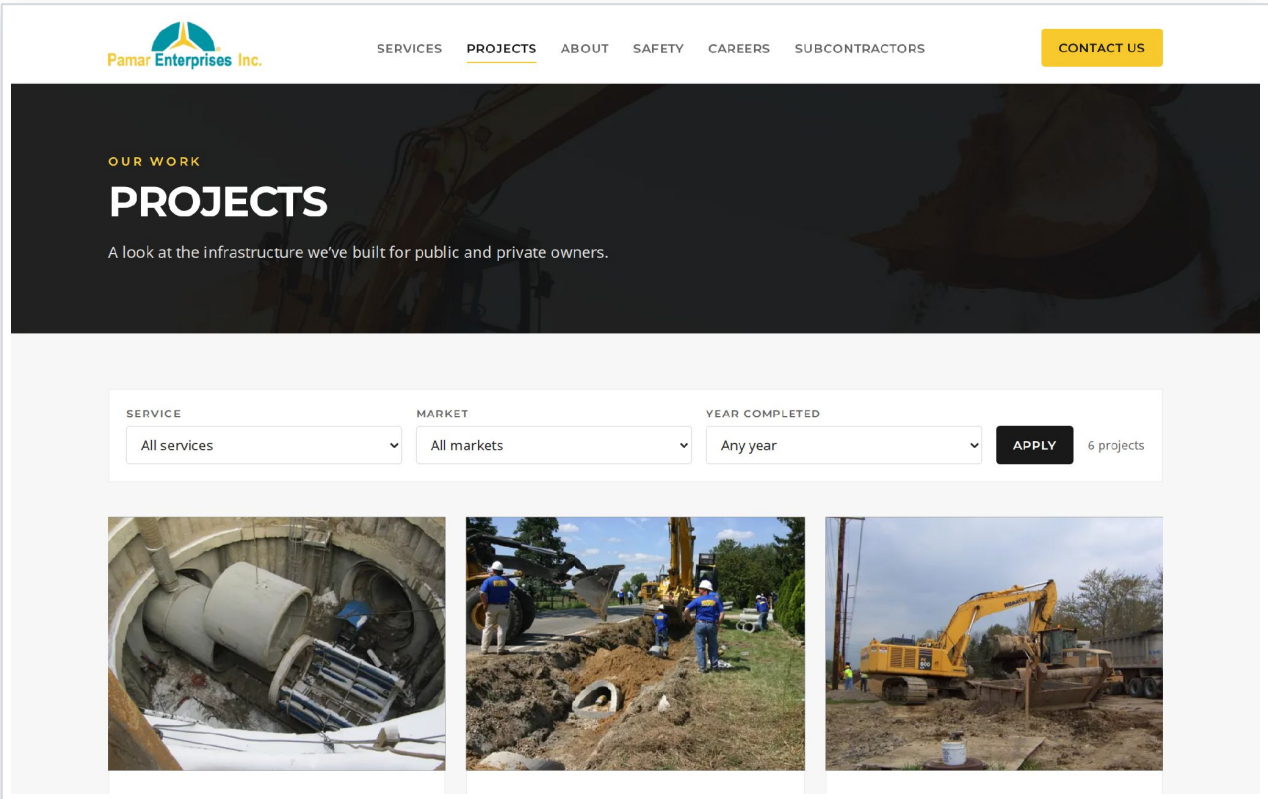

Capabilities pages

Each service line links to the projects that prove it.

Staff-managed

Marketing adds new projects in the CMS, with no developer needed.

From job post to applicant in minutes

- 1

Find the right opening
Filter by department, location, and full-time or seasonal.
- 2

Apply from a phone
Short form with certifications (CDL, OSHA) and resume upload.
- 3

HR gets it instantly
Email with the resume attached; the applicant gets a confirmation.
- 4

Every application counted
GA4 conversion tracking shows which jobs and channels work.

< 3 min

to apply on a phone,
including a resume

Select...

Certifications & licenses (optional)

Check any you currently hold.

☐ CDL Class A

☐ CDL Class B

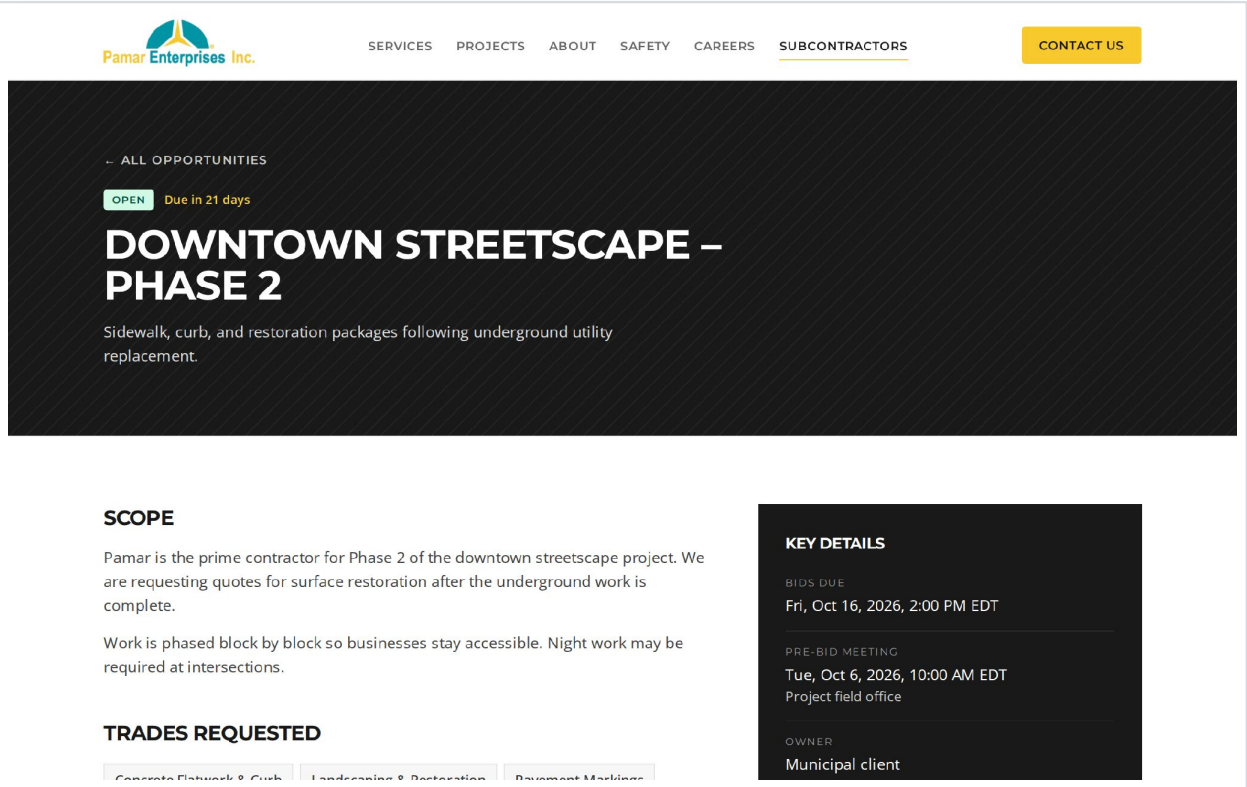

☐ OSHA 10

☐ OSHA 30

☐ Competent Person – Excavation

☐ Flagger

Post packages. Collect bids. Hit your goals.

Live bid board

Open packages listed first, soonest due date on top.

Deadlines enforced

Packages close automatically at the due time; late bids are rejected.

Intent to bid or full bid

Subs send a price and bid PDF straight to estimating.

Prequalification

Trades, service area, bonding, insurance, COI and W-9 on file.

DBE / MBE / WBE outreach

Certifications captured to support participation goals.

Built to be found, fast, and easy to run

Easy for staff

HR, estimating, and marketing update jobs, packages, and projects themselves.

Mobile-first & fast

Designed for the field. Targets Lighthouse 90+ on mobile.

Found on Google

Sitemap, structured data, and job listings eligible for Google for Jobs.

Measured

GA4 conversions for applications, registrations, bids, and inquiries.

Secure forms

Spam protection plus server-side file checks on every upload.

Accessible

Built to WCAG 2.1 AA: keyboard, screen reader, and contrast friendly.

Be the answer when they search

OWNERS & ENGINEERS

underground utility contractor
near me

What they find

Your services, projects, and safety record in Google results, Maps, and AI answers.

JOB SEEKERS

equipment operator jobs near me

What they find

Your openings in Google's job listings, with a one-tap mobile application.

SUBCONTRACTORS

sewer project subcontract bids

What they find

Your open packages, due dates, and bidder registration.

More searches now end with an AI answer, not a list of links. Google AI Overviews, ChatGPT, Perplexity, and Copilot summarize the sources they trust. The goal is for Pamar to be the source they name.

Rank in search. Get cited in answers.

SEO: search engines

Rank in Google search, Maps, and Google's job listings.

- Fast, mobile-first pages
- Clean URLs and a sitemap
- Local listings and Google Business Profile
- Job posting markup

AEO: answer engines

Get named and quoted by AI assistants and AI Overviews.

- Direct answers to real questions
- Structured data machines can read
- An llms.txt summary for AI tools
- Consistent facts everywhere Pamar appears

ALREADY BUILT INTO THE NEW SITE

COMMON QUESTIONS

What underground utility work does Pamar Enterprises handle? ✕

Sanitary and storm sewer, water main installation and replacement, manholes and structures, and service connections, along with the excavation, trench shoring, and dewatering that go with them.

Can utility work happen while roads and businesses stay open? +

Does Pamar work for municipalities or private developers? +

Direct answers on every service page, marked up so search engines and AI tools can quote them.

- ✓ Structured data on every key page
- ✓ Google job listing markup
- ✓ FAQ answers + llms.txt
- ✓ Sitemap, fast mobile pages

Your online presence, managed

Google Business Profile

Accurate hours, services, photos, and posts.

Reviews

A simple process to request and respond to reviews.

Project stories

New projects published as case studies.

Jobs & bid packages

Openings and packages posted and kept current.

Local listings

Consistent name, address, and phone everywhere.

AI answer monitoring

Checking what AI assistants say about Pamar, and fixing gaps.

Reported monthly

- Calls and contact-form leads
- Job applications
- Subcontractor registrations and bids
- Search rankings and visibility
- Mentions in AI answers

Search and AI visibility build over months. No one can guarantee rankings or citations; we make Pamar the clearest, most credible answer and track the results.

A HEAD START

This isn't a mockup. It's already working.

6

real Pamar projects

37

pages live in the preview

4

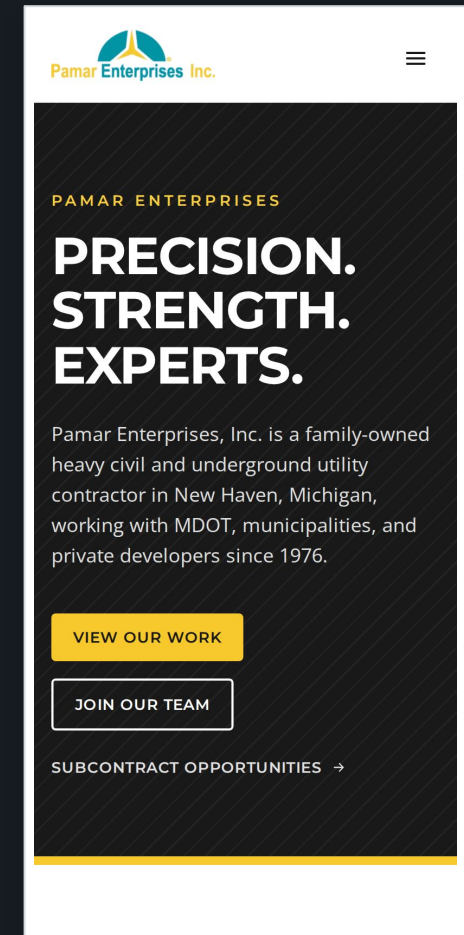

working forms

106

automated tests

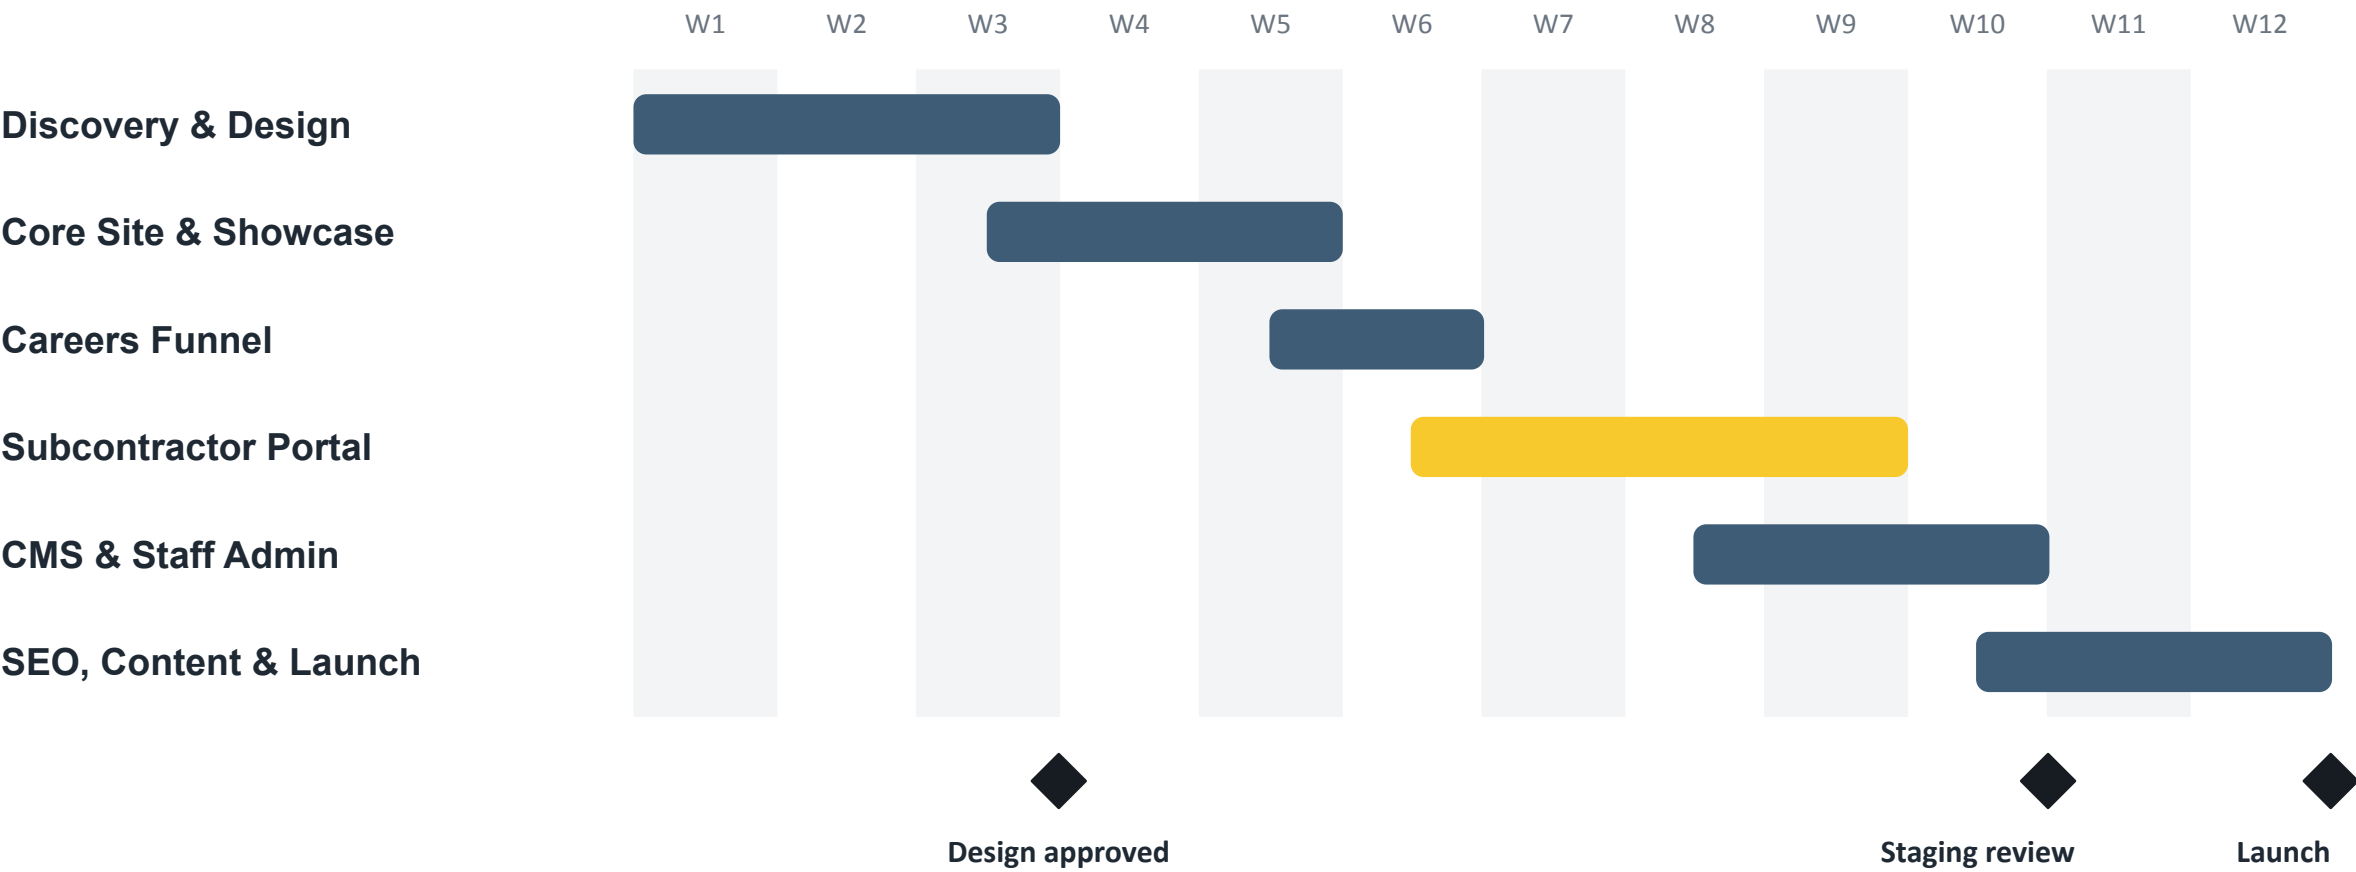

Core pages, the careers funnel, and the bid portal already run end to end, in Pamar's brand with real projects and company history. The build phases add the CMS, staff tools, and launch.

Lower risk · Faster launch · Decisions based on something you can click

TIMELINE

Live in about 12 weeks

Assumes content and feedback from Pamar within 3 business days. Phases overlap to shorten the schedule.

Choose the scope that fits

1 Essentials

Showcase and careers

- Showcase site: services, projects, About, Safety, Contact
- Careers funnel with mobile applications
- SEO, analytics, and launch
- Subcontracting stays on email for now

2 Standard

Add the subcontractor portal

- Everything in Essentials
- Bid board and subcontractor registration
- Intent-to-bid and bid submission
- CMS so staff update jobs, packages, and projects

3 Complete

The full platform

- Everything in Standard
- Subcontractor accounts
- Restricted plan and spec downloads
- Trade-matched bid alerts by email

Every package is a fixed price, sized to your budget and priorities. Add-ons are available: copywriting, project map, applicant-tracking integration, bid dashboard, photography.

Support plans that keep the site working for you

Essential

Secure & running

5 hours of maintenance and changes included

- Hosting, SSL & monthly security updates
- Uptime monitoring & daily backups
- Small content help
- 2-business-day response
- Quarterly analytics report

Growth

RECOMMENDED

Hands-on help

11 hours of maintenance and changes included

- Everything in Essential
- Staff help posting jobs, bids & projects
- Small new features
- 1-business-day response
- Monthly analytics + quarterly SEO check

Partner

Part of your team

24 hours of maintenance and changes included

- Everything in Growth
- Roadmap feature sprints
- Weekly updates, monthly SEO
- Same-day response (critical: 4 hrs)
- Quarterly strategy review

Every build includes a 30-day post-launch warranty. Extra work beyond a plan is billed at the standard rate.

NEXT STEPS

Let's shape it together

1

Walk through the prototype

A live demo of the working site with your team.

2

Share budget & priorities

Your budget range, timeline, and must-haves.

3

Get a fixed-price proposal

Sized to your budget, within 2 business days.

4

Kickoff & discovery workshop

Goals, reference-site review, content and photo plan.

Summit

Thank you. We're ready when you are.
